

MAY 26 @ 7 PM

GARDENING

CLINIC

Gibbsboro Community Garden presents its First Gardening Clinic!

Our first educational session will focus on the basics of planting your garden plot. It will be a question and answer training session and will review “Garden Rules.” Plot sign-ups will be available as well as plot assignments for those who have already paid. We will cover the basics of planting, maintenance and more.

Everyone is welcome to attend even if you decide not to maintain a plot with us. This will still be a great session to gain some ideas for gardening at your own home garden.

The session is expected to run for an hour. We are all busy but excited to get gardening! Our plots will soon be blooming with bounty!
