Borough Hall Office Hours

(Appointments recommended.)

Monday – Thursday 9 a.m. – 4 p.m.

Tuesday Eve 5 p.m. – 8 p.m.

Friday 9 a.m. - Noon

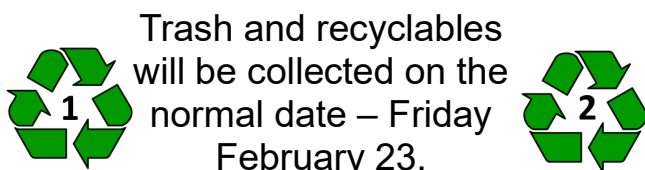

It's Electric: Senior Center Solar Power!

Since the installation of solar panels at the Borough Senior Center in Pole Hill Park more than 113,793 kilowatt-hours of electricity have been produced - enough to power a 100-watt light bulb for 1,137,930 hours! That production is estimated to have avoided the release of 193,447 pounds of CO² into the atmosphere.

Borough Offices will be closed Monday, February 19 for President's Day.

Borough of Gibbsboro

2/26/24 deadline

Include name, contact information, & 10+ facts about yourself

Sherwin-Williams Remediation Project Update

The Sherwin-Williams Company is working with the U.S. Environmental Protection Agency (EPA) to investigate and remediate environmental conditions associated with past industrial operations at the former Sherwin-Williams paint manufacturing plant in Gibbsboro. Activities at the three Superfund sites (Sherwin-Williams/ Hilliards Creek Site, the Route 561 Dump Site and the United States Avenue Burn Site) have been divided into six units to help facilitate the remedy decision and remedial action process.

Former Manufacturing Plant Soils (FMP) - The Former Manufacturing Plant (FMP) unit includes parcels at the base of Silver Lake north of Foster Avenue, parcels south of Foster Avenue, and a segment of Hilliards Creek between Foster Avenue and West Clementon Road. Remediation activities will begin in early 2024 and continue in a phased approach. The first area of the FMP scheduled for remediation includes two parcels on the eastern side of the FMP along United States Avenue. Site preparation, equipment mobilization and tree clearing are underway, and remediation is scheduled to start in February. This work is expected to take 3-4 months. Once this area is completed, additional areas of the FMP north of Foster Avenue are scheduled to be remediated.

United States Avenue Burn Site - Remediation activities are complete at the United States Avenue Burn Site unit. Phased restoration activities, including expansion and improvements to the Borough's multi-purpose trail system, are underway and will continue into Spring 2024.

Waterbodies including Hilliards Creek – The Waterbodies unit addresses contaminated sediments and floodplain soils in Silver Lake, Bridgewood Lake, Kirkwood Lake and Hilliards Creek. The Sherwin-Williams team has initiated Pre-Design Investigations (PDI) of Silver Lake and Bridgewood Lake in Gibbsboro. Once the PDI phase is complete for each lake, the team will move forward with remedial design.

FMP Groundwater - Sherwin-Williams is working with EPA to finalize the Remedial Investigation (RI) of the Groundwater unit. Once the RI is approved by EPA, Sherwin-Williams will proceed with the Feasibility Study to evaluate alternatives for addressing groundwater contamination at the FMP.

The Route 561 Dump Site Soils unit remediation is complete.

The Residential Properties unit remediation is complete.

Spring Cleanup

Help keep our neighborhoods, open spaces and trails clean during the spring cleanup at Blueberry Hill and Pole Hill Park on Saturday, March 16 from 9:00 am to Noon (Rain date: Sunday, March 17). Meet at the cul-de-sac on Old Berlin Road and Route 561. Work gloves and trash bags will be provided. Questions? Call 856-783-6655.

Planning Board Approvals

November: Minor site plan approval was granted to Alan Lemmerman, owner of Topless Pre-Rolls, LLC, to operate a Class 2 cannabis manufacturing facility at 16 Democrat Way.

December: Preliminary and final major site plan approval and a certificate of appropriateness were granted to MAK'S Properties LLC for improvements to the building exterior and parking lot for a company showroom for a kitchen and bath design and remodeling center as well as office space at 138 South Lakeview Drive.

January: Preliminary site plan approval was granted to Jane's Joint LLC to operate a Class 5 Cannabis Retail Dispensary at 142 South Lakeview Drive. Final major site plan review and certificate of appropriateness were continued to the February Planning Board meeting.
