

Construction of upgrades and improvements to Edgehill Road in the Borough of Gibbsboro, \$597,230.00 (Base Bid B) were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing terra-cotta sewer pipe, which is in poor condition, with new polyvinylchloride (P.V.C.) pipe, and sliplining terra-cotta sewer pipe, which is in fair condition, with cured-in-place pipe (C.I.P.P.) for residents and businesses along Edgehill Road in the Borough of Gibbsboro.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
